

General Electric CF-6 Engine Sounds

README AND INSTRUCTIONS

INSTALLATION

In order to properly install our aircraft, please follow the following steps closely.

Step #1

Extract this zip file to your main FS2004 folder. The files will automatically be put in their respective areas.

Step #2

You will need to edit the “sound.cfg” file in the “sound” folder of the aircraft of your choice. Please replace any and all lines with the following:

```
[fltsim]  
alias=SGA\Sounds\GE_CF-6
```

CREDITS

- **Sound Editing:** Erick Cantu
- **Original Recordings:** AirsideTV (<http://www.airsidetv.com>), Ryuji Ozawa
